# What does KETS do?

We are combining the power of quantum technologies to solve some of the most important security challenges on the planet.

– Our Mission –

KETS' mission is to protect the world's most valuable resource – information – from the threat of quantum computing.
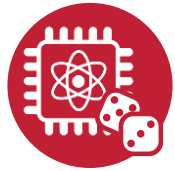

Chris Erven

CEO & Co-Founder – KETS Quantum Security Ltd – chris.erven@kets-quantum.com
EPIC Online Technology Meeting on Quantum Communication & Quantum Key Distribution

What does **KETS** offer?

We have figured out how to miniaturise quantum-safe hardware in a size, form-factor, and at a price-point that now makes it interesting to Telcos, Data Centres, & Defence.
