

GF Machining Solutions

# GF Microlution

# EPIC Online Technology Meeting

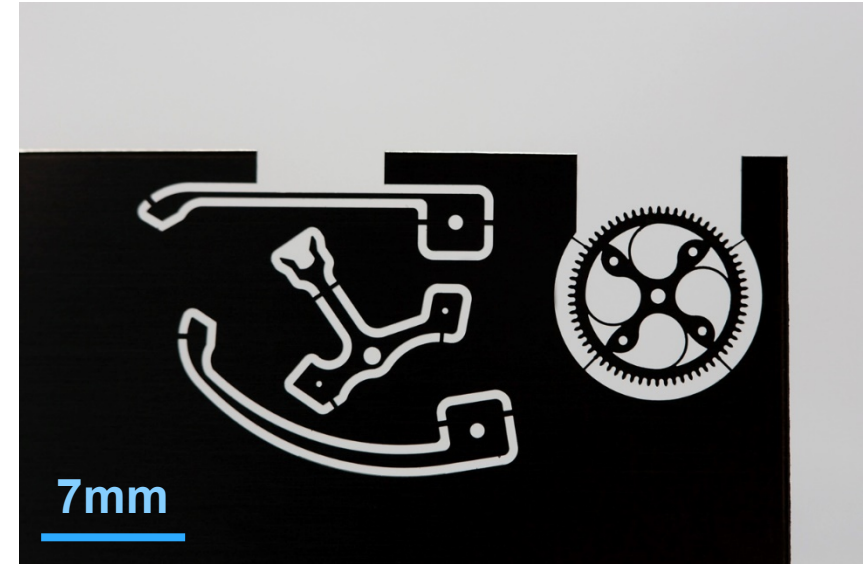

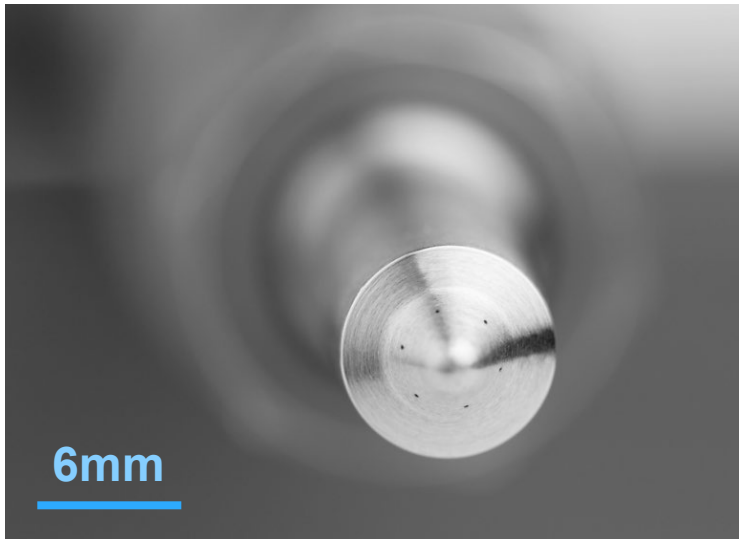

Andrew Honegger

May 17, 2021

# What We Do

- GF Microlution specializes in high precision laser workstations with an emphasis on:
  - Ultra-short pulsed lasers
  - High repeatability part positioning
  - Integrated turnkey solution

- Some key markets include:
  - Fine watch parts
  - Fuel injector spray holes
  - Medical parts
  - ICT / Electronics
  - Aerospace

# What We Offer

**+GF+**

## ML5

- Highly flexible 5-axis platform
- Offers taper control

**ML10**

- Aerospace industry
- Higher power lasers
- 3D feature shaping

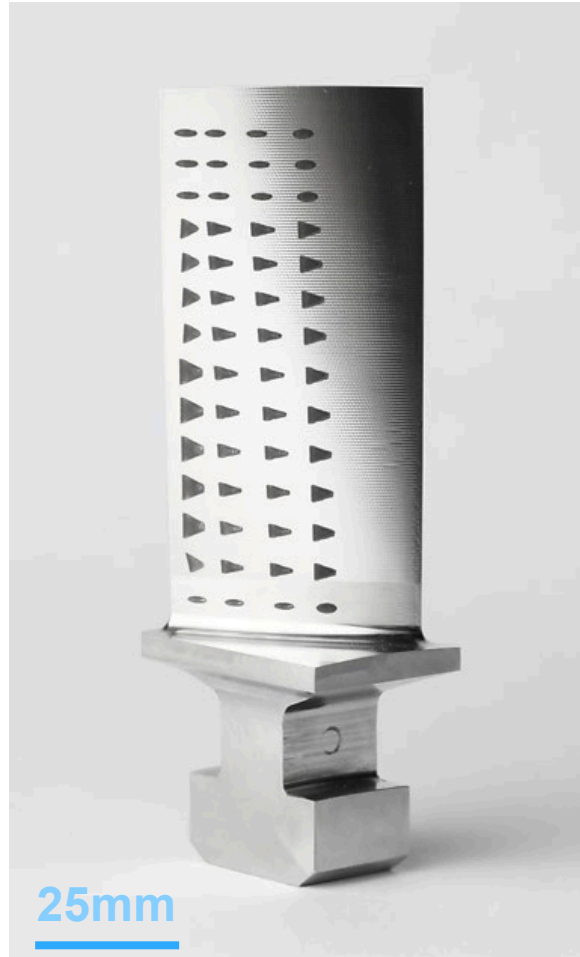

## MLTC

- Advanced laser tube cutter
- Tube diameters down to 250 $\mu$ m

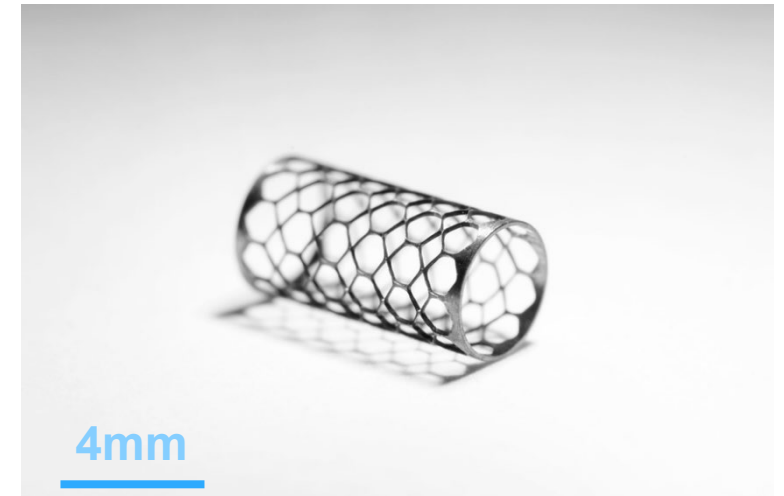

# What We Look For

- High quality features**
- No defects
  - High repeatability

- Tight tolerances**
- $\pm 1\mu\text{m}$  stage repeatability

**Thank You!**
