ABOUT MY COMPANY

FEMTOprint is a Swiss high-tech Contract Development and Manufacturing Organization (CDMO) specialized in high-precision 3D printing for glass microdevices.

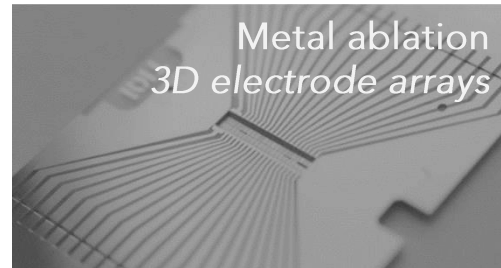

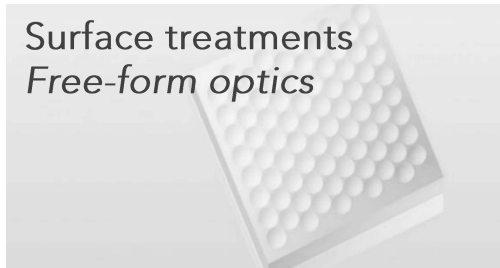

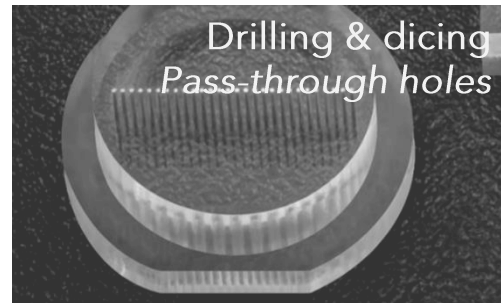

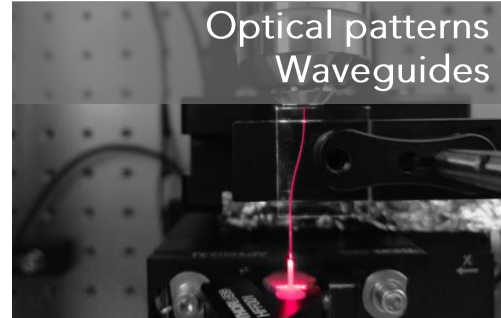

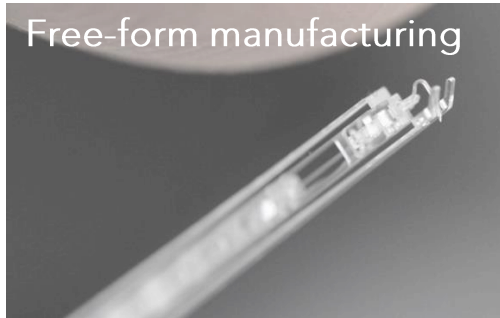

With the groundbreaking FEMTOPRINT® microfabrication platform we serve leading industrial Customers with **rapid prototyping, pilot- and industrial series manufacturing at wafer-level.**

WHY FEMTOPRINT

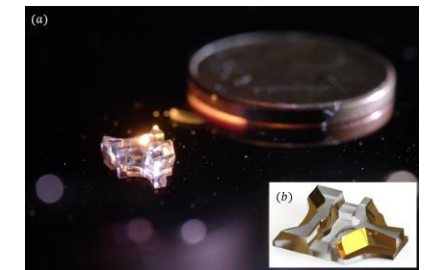

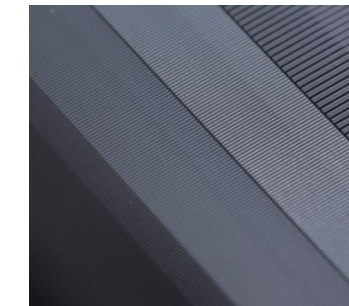

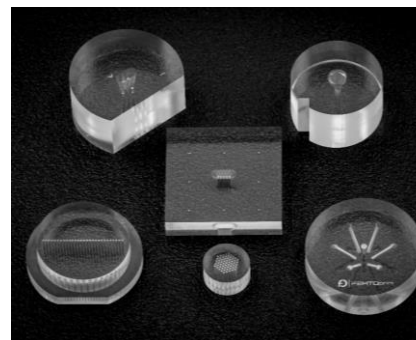

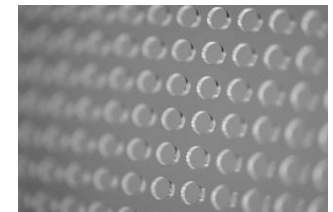

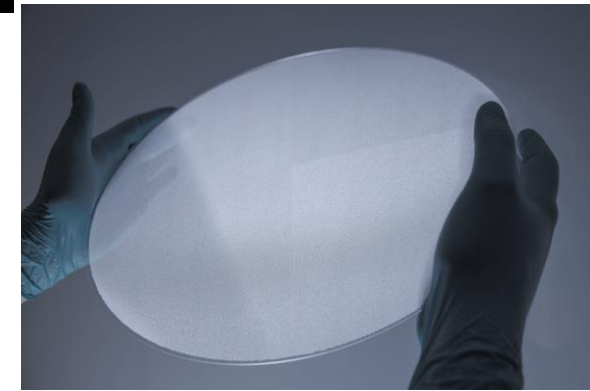

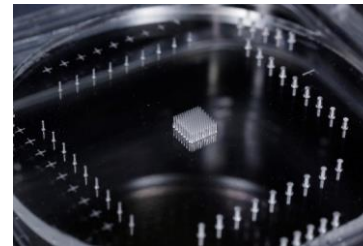

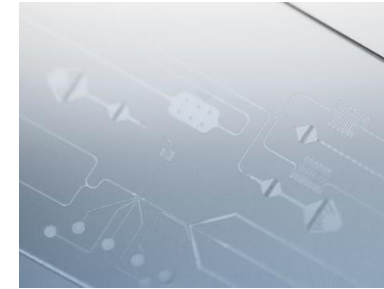

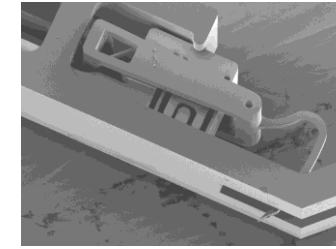

- In-house unique know-how and capabilities of glass micro-processing, from three-dimensional structuring, to welding and surface treatments at high precision.
- Vertically integrated, one-stop shop manufacturing foundry, delivering from single units up to volumes on wafer-level.
- Control over the entire value chain and fast turnaround cycles in prototyping.
- ISO 13485:2016 certified for medical devices.

CAPABILITIES

APPLICATIONS

Eng Nicoletta Casanova

Chief Executive Officer and President – FEMTOprint SA

BACKGROUND

- Civil Engineering Degree, Swiss Federal Institute of Technology ETHZ (CH)
- Kellogg School of Management, Chicago (US)
- Glider Pilot License

EXPERIENCE

- Founder, CEO, President of SMARTEC SA, Lugano - CH (1996, Exit 2012)
- CEO of TELEMAC SAS, Paris - FR (2008-2010)
- CTO - CEO of Istituto Meccanica dei Materiali SA, Lugano - CH (1994-2003)
- Business Development Consultant at Even2ally (since 2012)
- Innovation Counselor at Innosuisse – Swiss Innovation Agency (since 2017)
- Vice-President of AITI - Association of Ticino's industries (since 2014)
- Chair of BRIDGE Steering Committee (since 2018)
- Member of Aeroclub Locarno Committee (since 2014)
- Other advisory roles: NTN Microtech Booster, Phabulous, Microcity
